Cessation of RTO registration

If AAAT ceases operations, then steps will be taken to ensure that all continuing students either complete their training or are placed with another RTO before the transfer or sale is complete. AAAT will meet all its legal obligations to students. AAAT will protect former and continuing students and student records.

Any situation involving changes to the legal entity of AAAT, arrangements must be made for all current students to receive a copy of their student records, if not previously provided, including:

- a Certificate for each qualification completed,
- a Statement of Attainment for any units of competence completed in partial fulfilment of a qualification, and
- evidence of training and assessment activities undertaken that at the time of change in AAAT’s legal entity were only in partial fulfilment of a unit of competence;
- providing ASQA, in an agreed electronic and/or hard copy form, the following
 - information for each student who has undertaken nationally recognised training with the AAAT since initial registration:
 - full name of student and date of birth,
 - name and national code of qualification(s) issued,
 - names and national codes of the units of competence and/or modules completed,
 - dates on which the requirements for each qualification were achieved or, for qualifications only partly achieved, the date each unit of competence and/or module was achieved;

When a change of AAAT’s control, management or operations results in the grant of RTO registration to a new legal entity, the new provider may seek to enrol students of the previous RTO entity. Students enrolled by the previous legal entity are not bound to accept enrolment with the new legal entity, and may opt to transfer to other registered providers.

The sale or transfer of AAAT cannot ‘transfer’ the enrolment of individual students to the new entity. Individual students must consent to any transfer.

Students enrolled by the previous legal entity, and who have paid for ongoing courses of study with that provider, are entitled to apply for a refund of tuition fees in accordance with the provider’s refund policy and general consumer protection legislation

If competency is deemed and after additional requirements such as ID evidence, Statutory declaration or a manual assessment, which requires a qualified Trainer and Assessor to manually assess the students' performance and/or submitted answers, has been provided, the student will be issued with a Statement of Attainment for the chosen unit. In such cases a Statement of Attainment will be emailed to the student in a timely manner.

Statutory Declaration and ID provisions

In some cases it is mandatory to include a Statutory Declaration and/or a form of ID prior to commencement of unit or issuance of Statement of Attainment. AAAT online system allows for the online upload of both documents. The student can also fax documents to 08 9463 6232 or email scanned documents to info@aaat.edu.au. Statement of Attainments will not be issued for most units until either ID and/or Statutory Declaration has been received.

Pre-requisite Certificates

In some cases it is a legal requirement that a pre-requisite course has been successfully completed before the student can progress to the following unit such is the case with 52473WA:MLP1, An RSA (accredited unit) statement of attainment must be provided in the pre-requisite upload area of the online course before the student can proceed to train. The pre-requisite certificate can be from another RTO or may have been completed with AAAT. The pre-requisite certificate must also comply with legislation in relation to the expiry of such Statements. Information about the expiration of such documents can be found on our website home page by selecting the required course. A qualified Trainer and Assessor may require the student submit additional evidence or provide assistance in relation to the assessment. No further costs are required from the student. A Statement of Attainment will not be issued until the AAAT qualified Trainer and Assessor has deemed the student as competent.

AAAT will promptly provide copies of all qualification and statements of attainment achieved by enrolled students and provide ongoing assistance to enquiring students with regard to their record of achievements and statements of attainment.

Unique Student Identifier

All students studying nationally recognised training in Australia from 1 January 2015, are required to have a Unique Student Identifier (USI). A USI is an account (or reference number) made up of numbers and letters. The USI allows our students online access to their training records and results (transcript) through their online USI account.

A USI is required for new and continuing students undertaking nationally recognised Vocational Education and Training (VET) courses to receive their statement of attainment or qualification. The USI can be created or verified online via the AAAT website management portal and is at no cost to the students.

This USI will remain the students for life and be recorded with any nationally recognised VET course that is undertaken from the 1 January 2015.

Language, Literacy and Numeracy (LLN)

AAAT, where possible, provide training and assessment support services that meet learners individual needs regardless of their age, gender, culture or background. AAAT recognize some participants require more assistance than others. Participants with language, literacy or numeracy issues should notify AAAT by ticking the 'special needs' box on the AAAT registration page. Participants who request additional assistance will be provided with the appropriate support and guidance with the aim of assisting the student to obtain competency in the course undertaken. This assistance provided by AAAT will be within the principles of fairness and flexibility of workplace assessment and will be offered in a discrete manner. Some courses at AAAT require a minimum level of English. Participants with English difficulties may be eligible for free English tuition provided by the Adult Migrant English Program (AMEP). Information on this program can be found at www.immi.gov.au/amep.

Random sampling of students is conducted to ensure the authenticity of those completing learning and assessment online. A minimum standard of language, literacy and numeracy is required to complete online learning. If the participant fraudulently declares the minimum level is met, a statement of attainment may not be issued.

All students are questioned at the time of enrolment where they are provided with the opportunity to declare special needs in this area. If this is not indicated, the student has declared they have the minimum language, literacy and numeracy skills to proceed with online learning.

In addition, all students are required to undertake a short LLN self-assessment prior to the commencement of training. Satisfactory completion of the assessment is an entry requirement for admission into any course or unit.

Satisfactory Performance?

Students do not have to attain 100% correct in the assessment to demonstrate a satisfactory performance. The trainer/assessor has discretion as to whether or not the student fulfils the requirements for LLN. If an incorrect answer is submitted the student is flagged as a person who may require assistance or modified learning. AAAT will contact the student to discuss the incorrect answer/s submitted to determine if ongoing assistance is required. The student will be flagged for the duration of their training to assist trainers and assessor in recognizing learners who require additional assistance or training.

Trainers/assessors base their judgement on:

- If the student can complete their enrolment in full
- If the student obtains at least 90% correct in the assessment
